SOCIAL profile

RECEIVE _____

SEND _____ You are much warmer, but also more sensitive compared to your average team member.

DICTATE _____

FUNCTIONAL profile

THINK _____

DO _____ The scores show your team has a more pragmatic approach while yours can be more abstract, hence also the higher scores of the team on Do and Note.

NOTE _____

DYNAMIC profile

EXPLORE _____

BRAKE _____ The team's dynamics show flexibility but also some worrying. They incline to wait for instructions but will act when conditions demand so, a bit the same as a nurse would do. While the team reflects some desire for variation and action, they don't seek the challenges as much as you do.

STEER _____

GLOBAL

Your team profiles itself as attentive, heartily and ready to get into action when needed. Teamspirit can be very good and apart from social contacts, emphasis in the job should lay on administration. You're the one with the initiatives, with the guts and they'll find in you as well an attentive listener with concern for their needs.
